SUMMARY

I am a software engineer who loves connecting with people, learning new things, and takes pride in writing clean, modularized code.

TECH SKILLS

HTML5 / CSS3, Bootstrap, Materialize, Sass, JavaScript, jQuery, EJS, React + Redux, AngularJS, NodeJS, Express, MongoDB, Mongoose, MySQL, Socket.io, Mocha / Chai, Webpack, Git

RECENT PROJECTS

GigPlay <https://gigplay.herokuapp.com>

Full-Stack app built using Express.js webserver and Firebase that taps into user's Spotify Account and TicketMaster's API to deliver via React + Redux upcoming concerts for the bands they love.

Attorney Gap <http://attorney-gap.herokuapp.com>

Full Stack app built on NodeJs utilizing an Express.js webserver and MongoDB that delivers, via EJS, a platform for attorneys to post appearances they need covered and discover available appearances.

Campaign Donors <http://campaign-donors.herokuapp.com>

Single page search app utilizing jQuery and AJAX to fetch data collected by the Federal Election Commission and display who donates to specific candidates and causes.

RELEVANT EXPERIENCE

Thinkful **2017**

Completed intensive full-stack JavaScript Development Course. Learned industry best practices and practical software development standards by collaborating several hours a week with a senior web developer.

Hack Reactor Remote **2016**

Advanced software engineering immersive program. Experienced vigorous JavaScript curriculum through pair programming on small-scale projects and full stack applications.

WORK EXPERIENCE
